

# SAFETYTAG

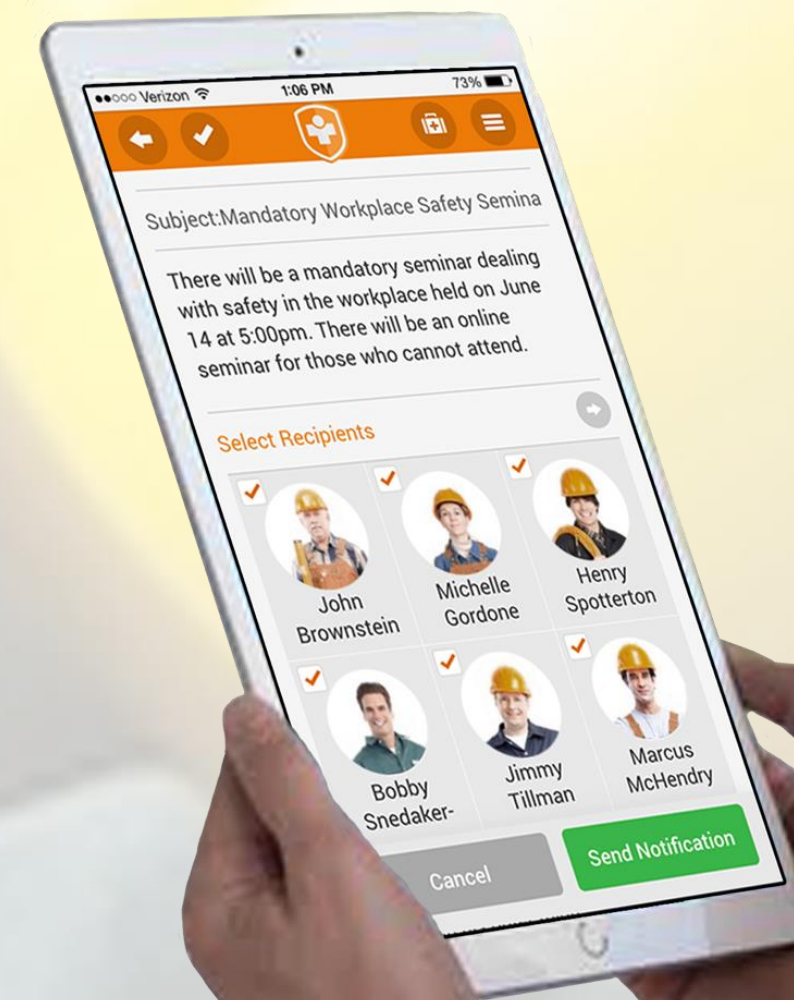

The central image displays the SafetyTag software interface on multiple devices. The desktop monitor shows the 'Reports' section with a table of user compliance data. The mobile app shows a notification screen with contact information and a 'Report Card'.

Sam was on the job site today when he was reaching for the level and a loose board fell from the wall and hit him in the left knee. The knee made a popping sound and Sam was not able to put any pressure on it afterwards because of the pain he was in.
