WORKPLACE

### **Product Overview**

# LEAGUES, SCHOOLS & CLUB SPORTS LACK:

- An automated safety and compliance platform accessible from the field
- Medically trained professionals present at practices, games and events
- Baseline Concussion Baseline Testing and Training

# Athletes/Parents

- Chronic illness
- Heatstroke
- Concussions
- Allergies

## <u>Coaches</u>

- Access to important health information in seconds
- Not trained for medical emergencies

# Leagues/Schools

- Safety compliance and background checks
- Injury management
  - Injury logging
  - Management of Return to Play policies

The Current Problem(s):

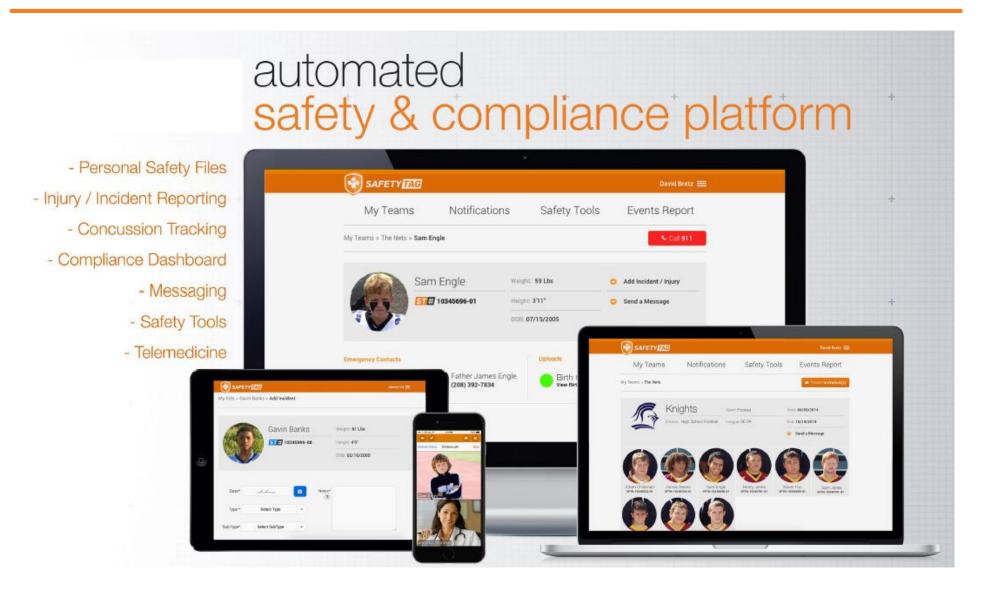

### Kids health between ages 5-18 years old

10%- Asthma 2.7%-Diabetes 8% Allergies, 1%- Heart Disease

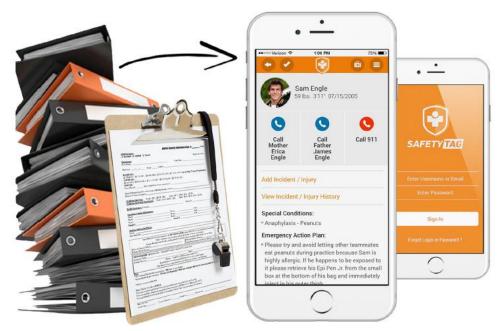

### The Solution:

### Product Snapshot:

- Secured communication platform
- Real-time incident reporting and emergency response plans
- Compliance, certifications, and other league mandated protocols
- Efficient and paperless process

### Parents Create and Manage the Player Safety File:

### Access & Visibility from the from anywhere...

### Access to Critical Info...in Seconds:

#### Special Conditions Peanut Allergy

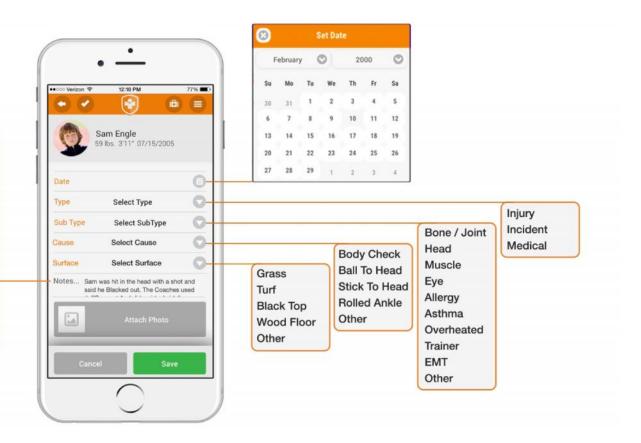

#### **Emergency Action Plan**

If Sam ingests peanuts his face and throat will begin to swell. Please find his Epi Pen (front pocket of his backpack) and administer it to his left thigh.

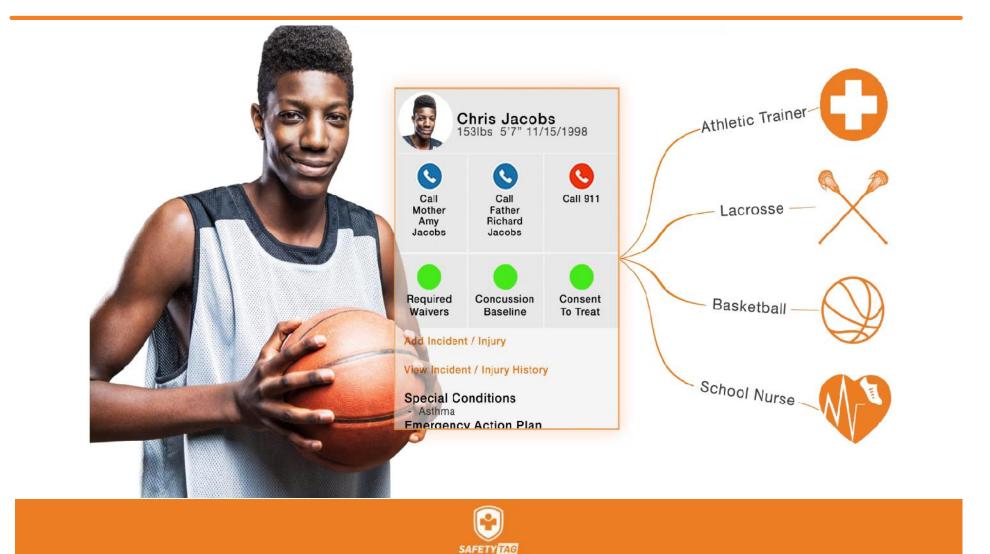

### Injury & Incident Reporting:

Sam was hit in the head with a shot and said he blacked out. The coaches used JeffConnect and did a virtual sideline assessment with Dr. William Jones of Thomas Jefferson Hospital who suggested he sit out the rest of the game. Dr. Jones will email you his contact information so you can schedule an office visit.

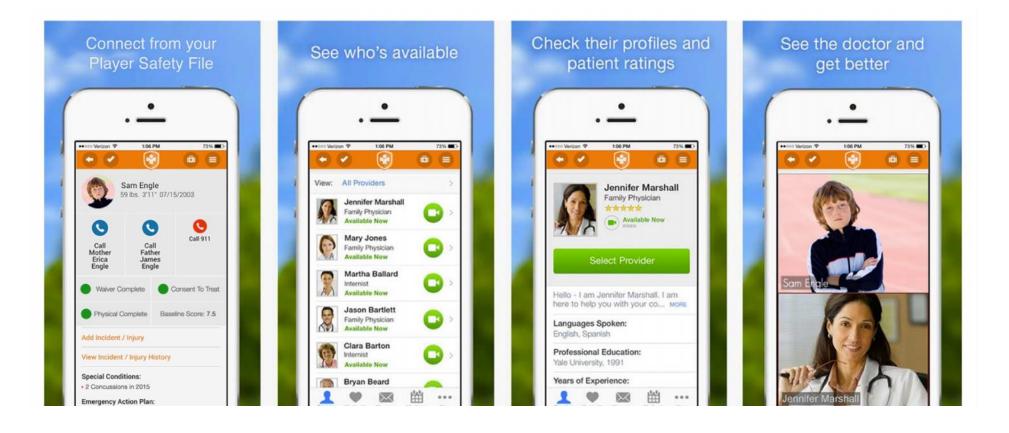

### Stay Connected - Grade-to-Grade, League-to-League

### Telemedicine from the Sidelines Home or on the road...

Unified View for all Stakeholders:

Safety Tag provides full circle communication between Parents, Coaches, and Administrators.

- Actionable
- Collaborative
- Virtual
- Efficient
